

BSG + RAIN + ESRIG + DOME  
TECH BOOTCAMP

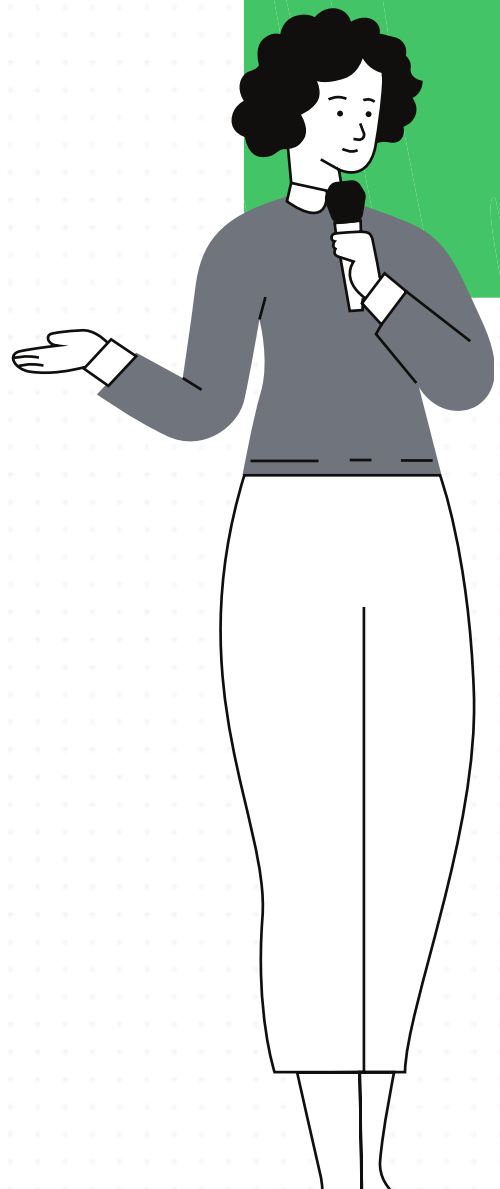

# JavaScript Fundamentals

By John Caleb  
Facilitator

# Today's Agenda

1 Data Types

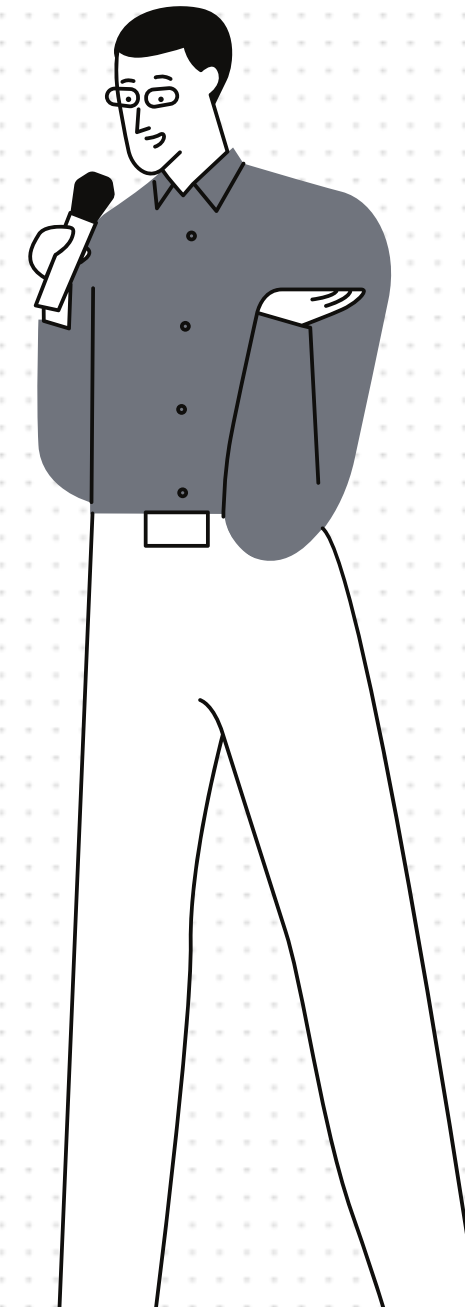

2 Variables

3 Operators

4 Expressions

Are you ready?

# Let's Start!

# Data Types

data types define the kind of data a variable can hold

number

string

boolean

bigint

undefined

object

code examples

2

"BSG"

true

233..n

{}, []

# Variables

A named container that stores a value.

**var**

**let**

**const**

# Operators

A symbol that performs operations on values/variables.

+

-

\*

/

=

==

===

--

+=

%

&&

||

# Expressions

Combinations of values, variables, and operators that compute to a value

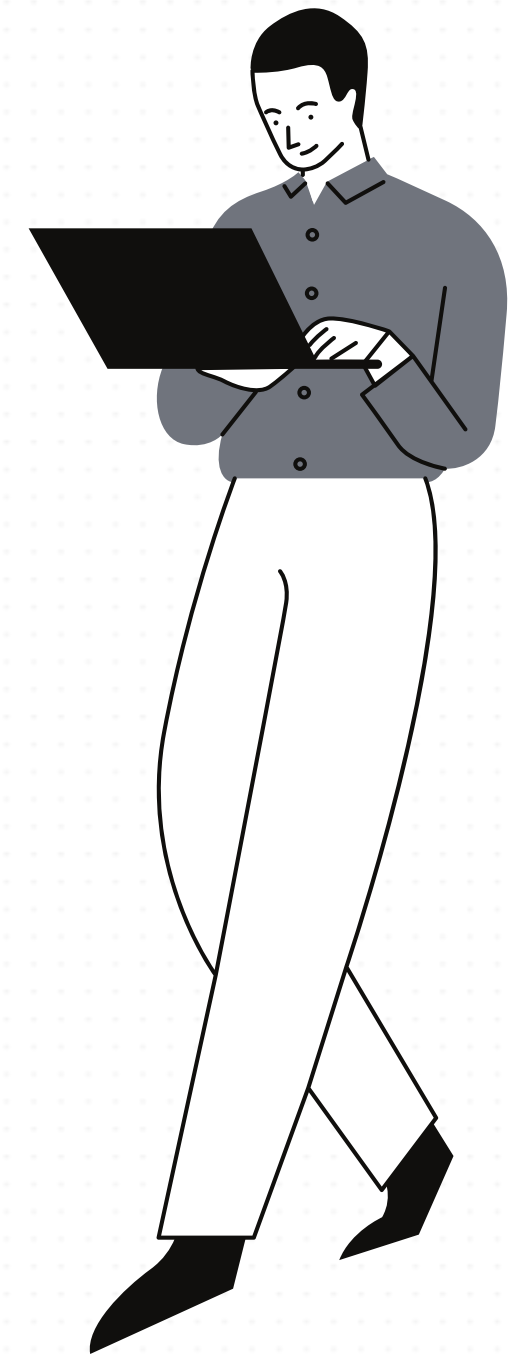

**ARITHMETIC**

**LOGICAL**

**COMPARISON**

**STRING**

**TERNARY**
